HFMA is the leading membership organization for healthcare financial management executives and leaders. More than 39,000 members value the Association's role as a respected thought leader on top trends and issues facing the healthcare industry.

At the chapter, regional, and national level, HFMA helps healthcare finance professionals meet the challenges of the modern healthcare environment by:

- Providing education, analysis, and guidance.
- Educating a broad spectrum of key industry decision makers on the intricacies and realities of maintaining fiscally healthy healthcare organizations.
- Building and supporting coalitions with other healthcare associations to ensure accurate representation of the healthcare finance profession.
- Working with a broad cross-section of stakeholders to improve the healthcare industry by identifying and bridging gaps in knowledge, best practices, and standards.

"When I joined HFMA, I expected – and found – a wealth of training and technical content. But I also found something even more powerful, namely the people I met, the networks I've formed, the friendships I've made, and the leadership opportunities and training I've received."

Joyce Zimowski, HFMA, CPA, Senior Vice President Operations for Unity Medical Group, Unity Health System
