

About OnArrival

Integrated Onsite Event Check-in

Eliminate long lines at check-in and impress your attendees with a seamless digital check-in experience. With Cvent, guests can register, check in, pay, check-in their guests, and preview/edit/print their name badge all on their own. Never waste time pre-stuffing name badges again!

Cvent's check-in solutions are directly tied into Cvent Event Management, so event attendance is tracked real-time, making reporting a breeze.

Session Attendance Tracking/Access Control

Once your attendees enter your event, don't let them disappear! Cvent provides a variety of solutions to track attendee activity onsite allowing you to:

- Track session attendance with handheld IR Scanners
- Determine which content, topics, speakers are most popular with your attendees.
- Determine individual attendee interests for better post-event follow-up

Payment Processing

Collect payments by swiping a new card with this IDTECH Shuttle Credit Card Reader. Go ahead and sell additional items like t-shirts or raffle tickets and take donations, too!

Learn More

Cvent OnArrival is an iOS mobile application that is available for use in conjunction with the Cvent Event Management Platform or for use on its own. Learn more at cvent.com.
