June 2020

## HFMA Maintenance Requirement for CHFP and Fellow of HFMA

HFMA CHFP and FHFMA credential renewal cycle is every three years. To renew your HFMA certification you must meet two requirements:

- Remain an active HFMA member
- Complete 60 hours\* of eligible education activities every three years

\*Effective June 1, 2020 the revised education requirement mandates that continuing education include a 20-hour minimum of HFMA [national/association], regional or local chapter education. A list of HFMA educational programs can be located here: <https://www.hfma.org/career-development/education.html>

Your educational activity will be reviewed at the end of the cycle and will update automatically to your next three-year recertification cycle if all requirements have been met. A confirmation notice will be sent out shortly thereafter.

## Education Activity Reporting Tool Instructions

Please take time to update your education activities using the HFMA online reporting tool. The tool can be found here: [www.hfma.org/maintain](http://www.hfma.org/maintain) (certified member login is required to access the tool). There are two options for reporting activities:

- **Option 1: Single Entry**

For each education activity, enter the requested information. (All fields are mandatory to have the activity added to your record.) After entering the information, hit the submit button. Do not hit return key as you must click SUBMIT to process this form.

- **Option 2: Multiple Entry via spreadsheet upload**

For each education activity, enter the requested information using the code legend below. The correct code must be entered, and all fields completed for the activities to be added to your record. The spreadsheet can be used real-time or can be downloaded/saved to your desktop. Track your activities throughout the year and submit multiple activities at one time via the online tool. Note: Save the spreadsheet in the exact format downloaded for simple upload.

Legend:

Activity	Activity Type	Category
A for Group Live	1 for HFMA National	D for Revenue Cycle Function
B for Presenter	2 for HFMA Chapter	E for Healthcare Environment
C for Publication	3 for Non HFMA	F for Financial Accounting
D for Self Study	4 for HFMA Region	G for Financial Management
		H for Quality Monitoring
		I for Leadership

### EDU and CPE - What is the difference?

Activities and/or programs for which you received CPE points from HFMA National do NOT need to be reported using the online reporting tool. All other activities (EDU points) must be reported via the online reporting tool, including HFMA local chapter events, regional events, article reviews, etc.

- **CPE points** are official NASBA approved HFMA CPE credits and are awarded by HFMA National for National meeting attendance (Annual conference, seminars, conferences, live webinars, etc.); an evaluation form must be completed for CPE to be awarded. This also includes any local chapter or state approved Continuing Professional Education (CPE) credits.
- **EDU points** are self-reported education activities using the online reporting tool provided for HFMA certified members only. Examples of self reported activity: local chapter or regional events, on-demand webinars, article reviews, non-HFMA related eligible activities (may include non-HFMA CPE’s earned via another organization)

Contact Hours = CPE or EDU. Both categories (CPE & EDU) of contact hours are totaled together for a final count of maintenance for our certified members. HFMA programs that do not offer CPE may be eligible toward HFMA certification maintenance activity points when self-reported.

### Eligible Certification Maintenance Activities

The types of professional development activities and categories eligible toward the HFMA certification maintenance requirement are listed in the table below. Continuing education eligible for certification maintenance includes (but is not limited to): seminars or conferences, workshops, educational offerings sponsored by your employer, webinars and e-learning self-study courses. All activities should be related to one of the following HFMA competency categories:

- Revenue Cycle Functions
- Healthcare Environment
- Financial Accounting
- Financial Management
- Quality Monitoring
- Leadership

The categories are very broad; a specific topic not listed here may fit in one of these areas. *Note: networking/social activities and programs offered by employers covering company operational*

## Certification Maintenance Information

### CPE Information

\*To receive NASBA CPE Credits for HFMA National live webinars you must participate in the checkpoints during the webinar and complete the online program evaluation within 2 business days. After 2 business days, online programs will be inactive, and you will not receive CPE Credit. HFMA will then add these activities to your HFMA education activities. If the online “checkpoint” was not completed, members must self-report for maintenance.

HFMA programs that do not offer HFMA awarded CPE credits may be accepted by your local State Board of Accountancy as education credit for your CPA license. Please contact your local State Board of Accountancy for more information regarding qualified programs and next steps. For information on how to contact your State Board of Accountancy, visit: <https://nasba.org/licensure/maintainingalicense/> or call NASBA at (866) 627-6286.

**Waivers and Extensions** -To request a waiver or extension to your due date, please email your request to HFMA for consideration at [careerservices@hfma.org](mailto:careerservices@hfma.org) in advance of your maintenance due date.
