SOMETHING NEW!

“Microlearning” and “Did You Know” Shorts Videos

“Microlearning” is a concept in training that due to today’s “challenged” attention spans, working adults have a hard time focusing on full-length training programs. Instead, they might do better with MUCH shorter training tips that they are exposed to more frequently, but that only provide one or two tips per lesson. As such, I’m now creating a series of microlearning videos that will be posted on my YouTube channel but also added as additional bonus content to my full length, multi-part video-based e-learning programs on my e-Learning Academy: <https://randy-deans-e-learning-academy.thinkific.com/>

Note that all of these components (videos below, full-length video training, my other YouTube video lessons on the previous pages, and related PDF handouts files and bonus files) could be added to your organization’s LMS or promoted as bonus content following a live in-person or webinar session (creating a “blended learning” experience for your team/members/attendees.)
