Frontline Reflection

"The raw suffering I have witnessed during this pandemic as a physician has been hard to bear. But I also know this pandemic is not only about a virus, but also the structures and systems that have failed us during this public health crisis."

- Physician, Cambridge Health Alliance

Data for Identifying and Addressing Health Disparities

Standardized demographic data collection plays a role in improving outcomes and addressing health disparities at every point along the continuum of care, from the individual provider-patient relationship to population health management.

9

Data for Identifying and Addressing Health Disparities

- 1) Standardize Reporting and Sharing of Robust Demographic Data in Health Care
- 2) Report Health Care Data by Census Tract Where Possible
- 3) Use Data Responsibly to Distribute Clinical and Community Resources
- 4) Harness Data to Measure Progress toward Health Equity Benchmarks

10

Equitable Distribution of Health Care Resources

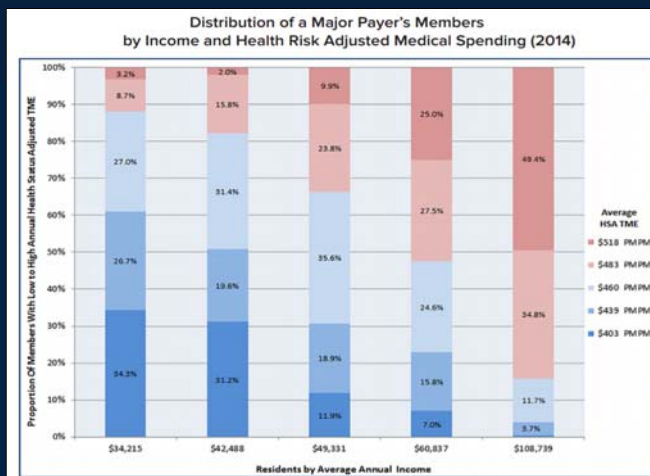

The disproportionate impact of COVID-19 on communities of color amplifies the longstanding need to change how health care resources are allocated, starting with payments to providers who care for underserved populations.

11

Equitable Distribution of Health Care Resources

From: Massachusetts AGO Cost Trends Report, (October 2016)

© 2021 Massachusetts Attorney General's Office

12

Equitable Distribution of Health Care Resources

- 1) Promote Equitable Provider Payment Rates
- 2) Expand Flexible and Equitable Global Payments
- 3) Address Cost Sharing Affordability as an Equity Priority
- 4) Ensure Equitable Distribution of COVID-19 Vaccine

13

Reporting on Vaccine Distribution

COVID-19 Geographic Reporting in Rhode Island

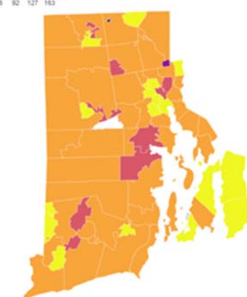

Cumulative Total Rate of COVID-19 Cases per 100,000 Population by US Census Zip Code Tabulation Areas

First Doses Administered Per Capita by ZIP

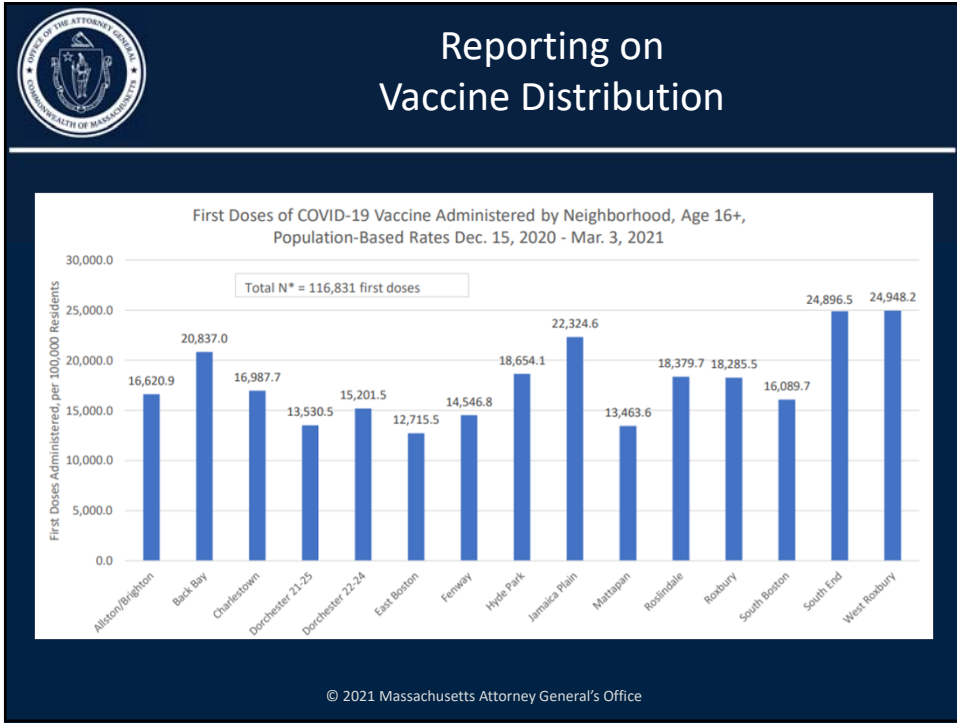

All of Feb. 2, Rhode Island had administered 97,260 doses to 71,545 people. Roughly 12% went into the arms of people who don't live in the state.

Per 1,000 people

Polling Question #2

© 2021 Massachusetts Attorney General's Office

16

Clinical Health Equity: Telehealth as a Tool for Expanding Equitable Access

Although telehealth is an opportunity to increase access to care, we must ensure that the expansion of telehealth does not worsen existing health disparities by leaving behind low-income, older, rural, and non-English speaking residents.

© 2021 Massachusetts Attorney General's Office

17

Clinical Health Equity: Telehealth as a Tool for Expanding Equitable Access

- 1) Address the Digital Divide
- 2) Activate Trusted Community-Based Providers to Build Digital Health Literacy
- 3) Ensure Access to Telehealth for Individuals with Disabilities and Limited English Proficiency

© 2021 Massachusetts Attorney General's Office

18

Health Care Workforce Diversity

The pandemic's disproportionate impact on communities of color has brought attention to the importance of making our health care workforce more representative of the populations served.

20

21

-
- Health Care Workforce Diversity**
- 1) Increase Health Care Workforce Diversity through Expanded Educational Opportunities
 - 2) Promote Equitable Development of Health Care Workforce Diversity and Capacity
 - 3) Build Community-Based Health Workforce Capacity to Meet Needs of Underserved Populations
- © 2021 Massachusetts Attorney General's Office

22

Social Determinants of Health and Root Causes of Health Disparities

The health care system alone cannot address the root causes of health inequities. Underlying social determinants of health play a significant role in determining population-wide health risks and outcomes.

© 2021 Massachusetts Attorney General's Office

23

Social Determinants of Health and Root Causes of Health Disparities

- 1) Invest in Social Determinants of Health to Address Root Causes of Disparities
- 2) Expand Capacity of and Coordination Across Local Public Health Departments
- 3) Explore New Regional Health Equity Infrastructure

24

Next Steps

The goal of this report is to build on our statewide dialogue on health equity, invite collaboration, and launch discussion about how best to advance these priorities. We invite policymakers, providers, payers, community leaders, patients, and other stakeholders to share their ideas with us.
