Live Webinars

Nov 30: Harnessing Price Transparency for Providers and PSHPs

Driven by accelerating regulatory changes, healthcare price transparency represents an increasingly vital strategy. Join this webinar to understand how both providers and provider-sponsored health plans can optimize contract negotiations, decision-making and strategic advantage by leveraging precise insights. Key topics include enhancing pricing strategies and detecting and correcting anomalies in service rates, along with uncovering opportunities for network expansion by identifying providers that offer favorable rates. Sponsored by CitiusTech

Dec 5: Region 8 HFMA: Current Issues in Business Ethics 2023

Boz Bostrom will provide participants with an update on business ethics issues. There will be a focus on learning from real-world ethical violations involving accounting and finance professionals.

Dec 6: The Big Picture: Month-End Close (November 2023)

Our monthly financial results do not occur in a vacuum. They are the product of various economic, social, political, and other macro-environmental forces that regularly combine with business strategy to yield a profit or loss. Unfortunately, the demands of daily finance

and accounting work often disconnect us from the "bigger picture." This webinar will help healthcare leaders keep their finger on the pulse of change and put their monthly operating results into context. Monitor the latest news and trends in healthcare finance. Identify ways to narrate your business performance for a larger audience.

[Dec 7: Decoding Patient Financial Trends](#)

In the ever-changing landscape of healthcare finance, grasping the shifting consumer perspective on how providers engage financially with patients is crucial for sustained success in 2024. Join Erlanger Health System and CarePayment experts as they decode trends in patient financial engagement from 2023, and how Understanding these trends can pave the way for provider success in 2024. Sponsored by: CarePayment

[Dec 12: Primary Care: A Crucial Strategy in Your Value-Based Journey](#)

Join a distinguished panel of experts to explore topics across value-based primary care models, physician incentives and the operational components essential for transitioning to risk-based payment models. This panel discussion will be led by Premier finance and value-based care leaders, as well as a Chief Operating Officer from a prominent faculty practice plan and a highly experienced physician executive from a large Clinical Integration Network (CIN), who has a proven track record in developing successful value-based and risk-based incentive models relevant to your organization. Sponsored by: Premier, Inc.

[Dec 13: A New Framework for Measuring RCM Success](#)

The healthcare industry is facing unprecedented financial pressure, and inaction is no longer an option. Health system leaders are evaluating revenue cycle management (RCM) digital transformation initiatives to accelerate cash and secure the financial health of their organizations. The industry lacks an industry-tested measurement approach to assess performance within RCM. This session will unpack the research in identifying a vendor-agnostic adoption model framework for revenue management that assesses an organization's technology footprint, as well as key performance indicator operations. Hear from a large health system on their perspectives and insights on the application of this model. Sponsored by: FinThrive
